REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason of allowance is that the prior art of record does not disclose or suggest a process as claimed in which the second stage reaction is conducted in the presence of a catalyst comprised of a Group VIII noble metal selected from Pt, Pd, Ir, and mixtures thereof on a bound M41S support. There is no motivation to utilize this type of catalyst in the process of Hantzer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
